

At LoveUrns® we care about design, aesthetics, quality, and emotions. We love small details.

Look closely at any LoveUrns® product, hold it in your hands and feel the passion and individuality of the artisan, smooth hand polished surface, painstakingly done hand-engraving and comforting lead-free colors. Each urn is a work of art, lovingly crafted by several efficient craftsmen.

All our products are designed and developed by the LoveUrns® team and Handcrafted with Love within our own manufacturing facilities in India, completely free of child labor.

We employ skilled adult artisans, allowing educational opportunities for their children who otherwise might be required to work. When you purchase one of these handcrafted urns, it directly benefits Indian artisans by allowing them to support their families with dignity and purpose. It pays for better nutrition, advanced education, and healthcare.

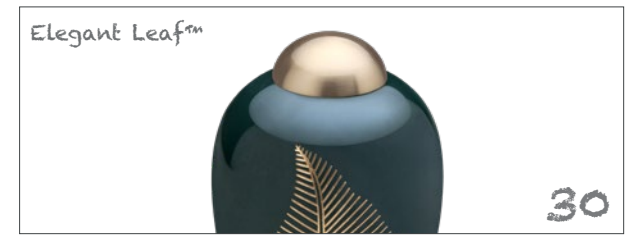

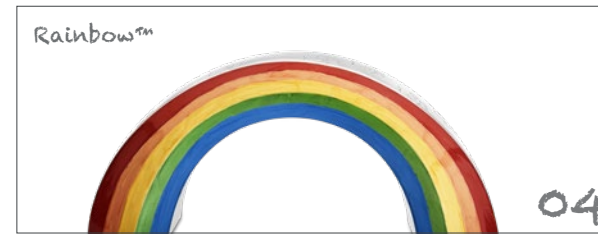

LoveUrns® has a human face and we reach out to our employees in their time of need, supporting them and even taking care of the medical expenses of their family. We ensure that our employees love the work they do and that they have a healthy and safe workplace.

We support handicrafts as a powerful way to create a more sustainable economic system, transforming the market from profit-centered to people-centered. We believe that supporting local artisans is not only good for the community, but it is also good for the art. As rising technology demands substituting skilled workers with machines, it is important to continue to support hand-making goods as an economically viable occupational choice.

We continue to work in this area to expand the availability of responsibly produced cremation and funeral products across the globe.

We are here to make really good honest products. Handcrafted with Love™

"Just this side of heaven is a place called
Rainbow Bridge.

When an animal dies
that has been especially close to someone here,
that pet goes to Rainbow Bridge.

There are meadows and hills for
all of our special friends so they can
run and play together.
There is plenty of food, water and sunshine,
and our friends are warm and comfortable.

All the animals who had been ill and old
are restored to health and vigour;
those who were hurt or maimed are
made whole and strong again,
just as we remember them in our dreams
of days and times gone by.

The animals are happy and content,
except for one small thing;
they each miss someone very special to them,
who had to be left behind.

They all run and play together,
but the day comes when one suddenly stops
and looks into the distance.
His bright eyes are intent; His eager body quivers.
Suddenly he begins to run from the group,
flying over the green grass,
his legs carrying him faster and faster.

You have been spotted, and when you and your
special friend finally meet,
you cling together in joyous reunion,
never to be parted again.

The happy kisses rain upon your face;
your hands again caress the beloved head,
and you look once more into the
trusting eyes of your pet,
so long gone from your
life but never absent from your heart.

Then you cross
Rainbow Bridge together."
